

# Direct-Air FANS

Direct-Air Fans are powerful axial destratification fans for open ceilings. These fans are designed to eliminate stratified air layers from ceiling to floor and help deliver 30% energy savings for high-elevation ceilings in commercial and industrial buildings.

16" (406.4 mm)  
Direct-Air 60

	Direct-Air 60
VOLTS	115V
HZ	50/60
AIRFLOW	1600 CFM
VELOCITY	70 FPM
WATTS @ 1500 RPM	0-120
AMPS	1.95
RPM	0-2100
DBA @ 10FT	62
MAX HEIGHT	60FT
COVERAGE AREA	2,000FT <sup>2</sup>
RATING	IP54
CONTROLS	Digital - TouchAIR or SmartAIR Analog - Low Voltage Control
COLOUR	Standard White - Custom Colours Available
